

CREATE MORE OPEN SPACE WITH
SUSTAINABLE DOOR SOLUTIONS

Kömmerling PremiDoor 76

WELCOME THE SUN INTO YOUR HOME

Bright living spaces flooded with light. This dream becomes a reality with the Kömmerling PremiDoor 76 lift/sliding system. Whether you're looking to recharge your batteries with a view of nature or feel inspired by the sprawling expanse of an urban skyline, anything is possible with Kömmerling PremiDoor 76 because it offers generous glazed areas that integrate the outside into your home.

This system is barrier-free, offers impressive ease of opening and closing, and delivers excellent levels of thermal insulation. In addition, the profiles are recyclable and made of eco-friendly PVCu. The result is a sustainable lift/sliding door solution that is perfect for any property, whether it's a new build or a renovation.

AT A GLANCE

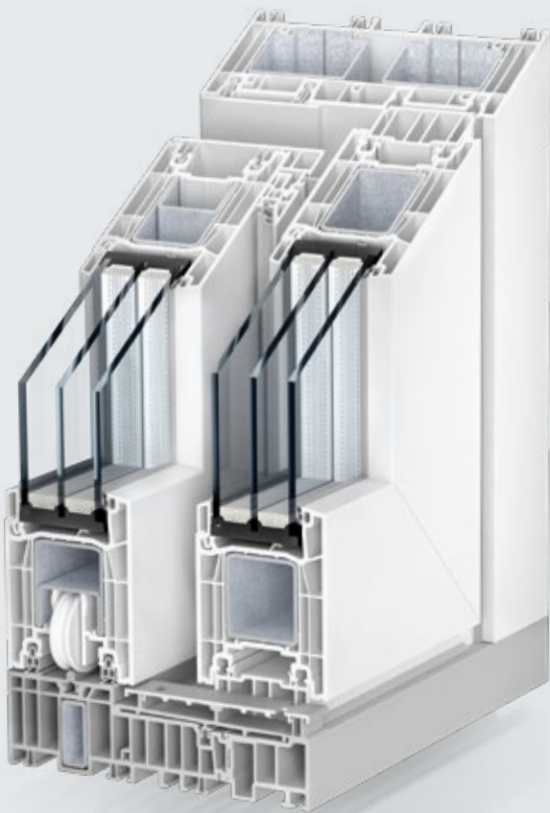

- Low threshold options for easier access.
- Large glazed areas maximise light and space.
- High level of incoming light and thus more heat recovery.
- User-friendly operation when opening and closing.
- Sustainable, recyclable system solution made of eco-friendly, lead-free PVCu profiles.
- U-values of 1.3 W/(m²K) double glazed and 0.92 W/(m²K) triple glazed can be readily achieved.

LOOK ON THE BRIGHT SIDE

Kömmerring PremiDoor 76 Lux

Are you looking for more? More transparency, more incoming light, more heat gain? Then Kömmerring PremiDoor 76 Lux is perfect for you. Thanks to its sophisticated design, the sash profile is exceptionally slender. This creates particularly generous glazed areas that let in even more sunlight, therefore providing additional heat gain.

Kömmerring PremiDoor 76

GIVE LIGHT MORE SPACE

Kömmerring PremiDoor 76 and PremiDoor 76 Lux

Are maximum thermal, sound and burglary protection important to you? Then the lift/sliding door system Kömmerring PremiDoor 76 is perfect. You can choose between two variants. The classic Kömmerring PremiDoor 76 design, which already offers high thermal insulation. Or you can opt for Kömmerring PremiDoor 76 Lux with even more incoming light.

PremiDoor 76		PremiDoor 76 Lux	
	Maximum installed height of 2.60m		
	Glazing options up to 52mm		
	Impressive U-values down to 1.3 W/(m²K) as standard		
	Enhanced security options including 3-Star cylinders		
	Low threshold options		
	Significantly more incoming light thanks to reduced sash profile		

Kömmerring PremiDoor 76 Lux

PERFECT VIEWS AND WONDERFUL PROSPECTS

Thanks to its availability in a wide range of colours and materials, Kömmerling PremiDoor 76 opens up a wealth of design possibilities for you. The palette ranges from classic PVCu white, high-quality foil solutions and AluClip aluminium shells to Kömmerling AcrylColor and proCoverTec.

COLOURS WITH A PROTECTIVE EFFECT

Kömmerling AcrylColor

Kömmerling AcrylColor offers colour diversity and a protective shield at the same time on the outside of your Kömmerling PremiDoor 76. Thanks to a heat treatment process, the acrylic is inseparably bonded with the PVCu of the profile. This ensures the window profiles remain colour-fast for a long time, meaning they have high scratch resistance, are easy to clean, weather resistant and virtually maintenance-free. As a further advantage: Kömmerling AcrylColor profiles are 100% recyclable.

THE UNBEATABLE DUO

Aluminium cladding AluClip

The AluClip aluminium cladding gets even more out of your Kömmerling PremiDoor 76 solution. The combination of PVCu profile and aluminium ensures easy care, elegant and cost effective solution for you to enjoy for a long time. In addition, the AluClip version offers unlimited choice of colours.

INNOVATIVE SURFACE TECHNOLOGY

proCoverTec – protected by colour

An innovative surface technology that can do more than just be colourful, proCoverTec gives a satin look and slightly textured feel. In addition, proCoverTec is UV and infrared light resistant as well as dirt repellent. In short, it's the perfect combination of effective protection and decorative colour.

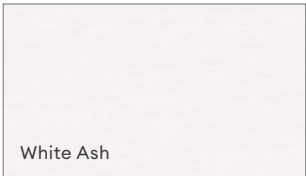

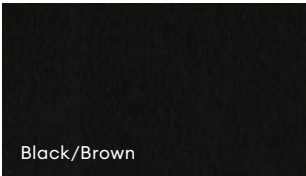

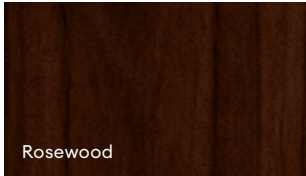

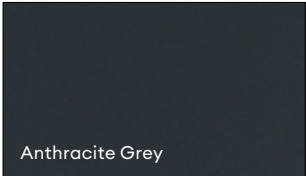

FIND YOUR PERFECT COLOUR AND FINISH

GONE ARE THE DAYS WHEN YOU COULD HAVE ANY COLOUR OF PVCu DOOR YOU LIKE, SO LONG AS IT'S WHITE. THE KÖMMERLING PREMIDOOOR 76 RANGE OFFERS YOU A WHOLE WORLD OF COLOUR CHOICES AND FINISHES - FROM THE TRADITIONAL TO THE CONTEMPORARY. FROM THE BOLD TO THE UNDERSTATED. AND EVERYTHING IN-BETWEEN.

STANDARD COLOUR FINISHES

MAKE THE MOST OF YOUR VIEW

WHATEVER THE OPENING, MAKE IT A PREMIDOOR 76

It's stylish, secure and provides effortless opening with a barrier-free option and enhanced security credentials. It's also impressively energy efficient either double or triple glazed. So make the most of the world outside, inside!

A WINDOW TO A BETTER WORLD...

IF A PRODUCT IS AESTHETICALLY APPEALING AND
HIGH PERFORMING, DOES IT MATTER HOW IT IS MADE?
AT KÖMMERLING, WE THINK IT DOES.

We don't believe that beautiful windows and doors should come at the expense of our even more beautiful planet. That's why a commitment to the environment, and to society as a whole, underpins everything we do.

Reflecting this, we were one of the first manufacturers of PVCu windows and doors to replace lead-based stabilisers in our profiles with non-toxic, more environmentally friendly calcium zinc-based alternatives.

We were also a founding member of an industry-wide project to recycle PVCu window and door waste into new windows and doors as well as the first company in the market to obtain 'Zero Pellet Loss' certification. This initiative helps to keep plastic out of the world's oceans and other environments.

The "KÖMMERLING Better World Stiftung" foundation, meanwhile, is our own not-for-profit charitable organisation. It raises money for a wide range of equally worthwhile causes including the care of the elderly, cancer research and children's homes.
